

Santiago Camilo Rey Benavides

 santiagoreyb •  santiagoreyb •  santiagoreyb.vercel.app
 •  •  Bogotá, Colombia

I am a Systems Engineer with solid experience in **full-stack** development and the deployment of **cloud architectures**. Specialized in the design and construction of **web, mobile, and video game** applications, I stand out for integrating advanced **Artificial Intelligence** solutions, such as **RAG** systems, supported by scalable and secure infrastructures. With a technical rigor focused on best practices, I am passionate about leveraging modern technologies to create efficient, user-centered products oriented towards accessibility and sustainability.

Experience

- ECU Worldwide**
Full Stack Developer / Software Engineer

Bogotá, Colombia
Dec 2025 – Present

 - **Led integrations with customs systems** in LATAM (including Argentina) and the US using XML and EDI formats, automating processes and optimizing operational costs.
 - **Developed scalable applications** using **Angular, .NET 8/10, and Java**, actively participating in the definition of architectures under modern engineering standards.
 - **Managed infrastructure on Microsoft Azure**, collaborating with DevOps teams to implement **CI/CD** pipelines and ensure software scalability in production.
- Colpensiones**
Full Stack Developer and Automation Engineer

Bogotá, Colombia
Feb 2025 – Nov 2025

 - **Optimized internal technological efficiency** by developing applications with **.NET (C#), Angular, and SQL Server**, achieving a 30% reduction in processing times.
 - **Designed and implemented secure REST APIs**, strengthening interoperability between institutional digital platforms.
- AWAQ Organization**
Developer and Scrum Master

Bogotá, Colombia
Feb 2024 – Nov 2024

 - **Led the development of the 3D video game EcoGuardians** in **Unity (C#)**, increasing user engagement and promoting environmental awareness.
 - **Managed a team under the Scrum methodology**, meeting 100% of sprint objectives and consolidating a culture of technical collaboration.

Education

- Pontificia Universidad Javeriana**
Systems Engineering

Bogotá, Colombia
2021 – 2025

Honors: Academic Excellence Scholarship • Honorable Mention for Graduation Project.

Highlighted Courses & Certifications

- Google**
Associate Cloud Engineer (GCP)

Feb 2026

Official certification in deployment, management, and maintenance of cloud solutions on Google Cloud Platform.
- Código Facilito**
Bootcamp Azure AI Engineer Associate

Mar 2026

Design and implementation of Artificial Intelligence solutions on Azure, use of cognitive services and machine learning.
- Amazon Web Services**
AWS Cloud Practitioner

In progress (May 2026)

AWS Cloud fundamentals, Linux, networking, security, and databases. Preparation for official certification.
- Universidad de los Andes**
Cloud Computing with Azure and AWS

Jul 2025

Architecture, administration, governance, DevOps, and automation of services in Azure and AWS.
- Samsung & Pontificia U. Javeriana**
Programming and Coding Diploma

Jun 2021

Programming fundamentals in C and C++. Design of interactive solutions using Arduino and Scratch.

Languages

Spanish: Native • English: B2

Skills

Highlighted Projects

- **AI & Cloud:** Azure AI, RAG, GCP, AWS, Tensor-Flow, Firebase.
 - **Languages:** C#, Java, TypeScript, Python, C++, Kotlin, Dart.
 - **Frontend:** Angular, React, Tailwind CSS, HTML5, CSS3.
 - **Backend:** .NET Core, Node.js, Spring Boot.
 - **Databases:** PostgreSQL, SQL Server, Oracle, MongoDB.
 - **DevOps & OS:** Azure DevOps, Docker, Git, Linux (Ubuntu, Red Hat).
 - **Mobile:** Android Studio, Kotlin, Flutter (basic).
- **SURE Agent (AI/RAG):** Intelligent agent for decision-making with **Azure OpenAI**.
 - **NeonCat (Unity):** 3D video game for GameJam.
 - **CuantoNecesitoPUJ:** Full stack academic web application (**Spring Boot, Angular**).
 - **WhereIsIt:** Mobile app in **Kotlin** with Firebase and Google Maps API for real-time tracking.
 - **Neural Networks - Wine:** Machine Learning model with **TensorFlow** and **Pandas** for quality prediction.
